head lights have nothing to do with check engine light.modifying exhaust if it has an EGR valve does turn the light on under acceleration.best is to not shut off the engine and read the code. Jul 16, 2013 | 2007 Mazda Speed 3 Hatchback

SOLVED: Engine light and battery light comes on after a ...

Check engine light comes back on for about 5 seconds after the engine starts and then goes out. I never worry about it, just keep riding until it resets. Whether it's riding or ignition cycles I don't know, but I'm not about to sit there and turn my ignition on and off 50 times in a row just to make the light go out.

Check Engine Light questions | V-Twin Forum

The lights came off and on again for maybe 10 miles and then went off the rest of the way home. Plenty of cranking power. Battery is two years old and always on the battery tender when not riding. Volt gauge showed 14.2 volts when riding and maybe 12.4 at idle.

Battery light came on | Harley Davidson Forums
