Engine Oil Dipsticks Even in highly computerized modern engines, the humble oil dipstick remains an important diagnostic tool. If yours has become lost or broken, or if you need one with some sparkle for your show car or restoration project, you can find it at Summit Racing Equipment.

Engine Oil Dipsticks | Summit Racing
The engine oil dipstick is a flexible metal rod that slides down the oil dipstick tube into the oil pan to measure the oil level. Located on the front or sides of the engine, the dipstick may have a T-shape or oval-shaped handle with an image of a dripping oil can.

Engine Oil Dipstick/Tube | O'Reilly Auto Parts
You have to use a long, thin rod known as the oil dipstick. You have to dip this rod into the engine to check the oil level through the markings on the stick. Oil on the dipstick will tell you if there's still enough fluid to lube up the numerous engine parts or if it's time to fill up.

Flexible Engine Dipsticks are designed with a billet aluminum handle to coordinate with Lokar's Flexible Transmission Dipstick. Slim design allows mounting inside headers. Designed for use with factory or block hugger headers. Applications available for GM, Ford and Chrysler.

Lokar : Engine Dipsticks
The location of the oil dipstick depends on whether your vehicle has an in-line engine (rear-wheel drive) as shown here. If you have a transverse engine (front-wheel drive) your dipstick should be located near the front of the engine, as shown here. Insert the stick back into the pipe. If the dipstick gets stuck on the way in, turn it around.

well, took it around the block tonight, got on it to about 3500 and had some oil on the windshield, pulled over, reved it by hand, oil is coming out the dipstick still. On the way back to the house i got on it harder and it blew the pcv and grommet right out of the other grommet (forgot the silicone that one in).

oil out the dipstick | For A Bodies Only Mopar Forum
The oil on your dipstick drops off like water droplets The oil pressure gauge shows low oil pressure You notice that, while changing the engine oil, the oil seems not so viscous If you encounter any of these symptoms, it may be that there's an excessive amount of gas getting into the oil in your engine which isn't normal.
