Freehand lettering is done without the assistance of tools. To regulate lettering height, commonly 3 mm (1/8-in), guidelines are drawn. Mechanical lettering is done using tools such as lettering guides, templates, or using a small mechanical pantograph referred to by the Keuffel and Esser trademark "Leroy"

Technical lettering - Wikipedia

In general, breaking changes can be made only in a new major product version, e.g. moving from 1.x.x to 2.0.0. Even still, we generally try to avoid breaking changes because they can incur large costs for anyone using these products. Breaking changes in major versions need to be approved by an engineering manager.
