Use Original Equipment Motorcraft Filters & Oil Products

In the 1950s, Ford introduced a three-tier approach to engines, with small, mid-sized, and larger engines aimed at different markets. All of Ford's mainstream V8 engines were replaced by the overhead cam Modular family in the 1990s and the company introduced a new large architecture, the Boss family, for 2010.

List of Ford engines - Wikipedia

On this site we present the current ACEA oil sequences. Why are specifications important? Choosing a motor oil for our car is not as simple now as it used to be. As the emission limits get severer and severer and car manufacturers are designing more and more complex engines the demands a lubricant is facing are getting rather high.

Oil Specifications

Engine Specifications. The Ford 4.2-liter engine is a 256-cubic-inch, six-cylinder engine. This engine's cylinder bore had a diameter of 3.81 inches and a piston stroke length of 3.74 inches. The Ford 4.2-liter engine is not turbocharged.
