Hydrosphere & Atmosphere Chapter Exam Instructions. Choose your answers to the questions and click 'Next' to see the next set of questions. You can skip questions if you would like and come back to them later with the yellow "Go To First Skipped Question" button. When you have completed the practice exam, a green submit button will appear.

Hydrosphere & Atmosphere - Study.com

Earth's water makes up the hydrosphere. Hydro means "water." The hydrosphere includes the oceans, rivers, lakes, groundwater, and water frozen in glaciers. 97% of water on Earth is found in the oceans. Water is one of the most important substances needed for life and makes up about 90% of living things. Without water, life would not be possible.

In compliance with Federal law, including Section 504 of the 1973 Rehabilitation Act and the provisions of Title IX of the Education Amendments of 1972, New Hanover County Schools administers all state-operated educational programs, employment activities, and admissions without discrimination because of disability, race, religion, national, or ethnic origin, color, age, military service, or ...

Mrs. Supak - Weather and Atmosphere

1) The atmosphere absorbs water through evaporation. 2) The atmosphere protects the Earth from the sun's ultraviolet rays, thereby keeping the oceans cooler and enabling water to exist on Earth. 3) The ocean absorbs carbon dioxide from the atmosphere. For this reason, we say the ocean is a "carbon sink".
