If your Mini is equipped with radio controls on the steering wheel, the "+" and "-" buttons control the volume while the right and left arrow buttons let you scroll through saved radio stations. In order to use the radio, you must first insert the key into the ignition slot and either start the ignition or switch the car to radio readiness

Andy: Comments: The radio in my 2009 Mini Cooper S just suddenly died. Working great on the drive to a store, on restarting the car the radio was dead. So too were the seat belt chimes, the display on the central speedometer including the indication lights & some other internal features like the mood lighting.
