SketchUp Guide for Woodworkers: Advanced Techniques (Video)

Sketchup operates in seconds, not frames. By default, V-Ray 3.x sets 30 frames per second. That means if you set the Scene Transition time to 1 second - you will receive 30 frames rendered between Page 1 -> Page 2. If you set 2 seconds for scene transition, you will get 60 frames rendered between your SketchUp pages.

SketchUp Guide | GarageFarm.NET Render Farm

If you're using SketchUp for architectural rendering or site management, though, this guide is going to come in handy. Most of what we'll cover will be familiar territory for people in the VFX industry, but there'll be a few highlights that are fairly specific to the industries that use SketchUp the most.
