Wall Mounted Air Conditioner Installation

Place your air conditioner into the wall opening. On each of the top and bottom edges of the unit, or on the two side edges, you'll find a metal or plastic flange (rim) with screw holes. Once your air conditioner is in place, drill a screw through the flange hole and into a stud or the 2"x4" frame.

How to install a Wall-Mounted Air Conditioner ...

In-wall air conditioners must be vented through an exterior wall, so make sure the inside of your wall is clear of any plumbing pipes or electrical wiring. Air conditioner wall units also need to be installed with a wall sleeve - either a through-the-wall sleeve or a slide-out chassis - because an exterior wall cannot support the weight of a unit by itself.
